2021/07/28

Image: GSA The new GSA GNSS Market Report is now available for download. The report provides a comprehensive overview of the GNSS market and the global industry, as well as a focus on EGNSS differentiators and synergies with Copernicus, according to the publisher, the European GNSS Agency (GSA). Areas covered include: A general overview of the GNSS market and a global industry overview. Analysis of macro-trends affecting GNSS, including climate change and the circular economy, big data, artificial intelligence, the silver economy, cyber security and the sharing economy. A review of the main GNSS market segments in detail, including trends and developments, forecasts for future shipments, revenues and the GNSS installed base, and a look into GNSS user requirements. GNSS in Space. This year, the report features the "Editor's Special: GNSS for NewSpace," a section that introduces GNSS receivers in satellites and their relation to the evolving space sector. GNSS market monitoring is a key activity of the GSA. Market monitoring supports GNSS stakeholders in their planning and decision-making, and offers a clear tool to understand GNSS trends and evolutions. Since its launch in 2010, the GSA GNSS Market Report has become the go-to-source for information on the dynamic, global GNSS market segments and applications.
